ABOUT ME: SARAH WEBER PHOTOGRAPHY

I am a happy go lucky professional full time photographer based in West Auckland. I have over 20 years of photography expertise, dedicated to crafting unforgettable memories.

A day in the life -On weekends, I specialise in capturing special occasions like weddings and family milestones sessions. Weekdays I'm often photographing corporate events and working on business branding projects. In the evenings, I find myself editing where I feel most productive. I like to watch a good series while immersing myself in the editing process. I personally edit and curate all my images to achieve the current style you see.

A little bit of history -I spent my childhood in Mangawhai during the 80s, enjoying weekends at the beach. After moving to Invercargill for farming, I discovered my passion for rowing in my early teens.

Finishing off at boarding school in Auckland, I realised my dream of becoming a photographer while taking photography. In the early 2000s, I pursued further studies in Photography and Graphic Design in Christchurch. Followed by living in London, Scotland, and Sweden during my OE. Now, I have come full circle back to Auckland, spending a lot of time in my hometown of Mangawhai, back on the beach!

To now -My husband Lars (who I met on my OE), have been married to for over 20 years. He is my tech-savvy partner, helping me with all the geek technical support. Working from home allows me to spend more time with my daughters Mia (18yrs) and Riley (16yrs) and ply taxi mum for all their activities including competitive Cheerleading and Dancing.

If you think I sound like your vibe, you like my style and think I could be the right photographer for you, let's chat over the phone or meet up for date. Love me a good coffee or a sneaky drink!

Cheers,
Sarah.

THOUGHTS & QUESTIONS

Can we catch up before we book? Absolutely, lets catch for a drink, hot or cold! It's so much easier to go over all your question in person. If your not based or visiting Auckland, a phone/ video call always works a treat.

We are not sure how many hours we need? Let me help, after our chat, I can draft up a timeline that may suit.

Can we add more hours later: If you get closer to your wedding and you decide you would like more photography coverage, easy!

Do we need a 2nd Photographer? Often I photograph solo but here are some reasons why it maybe a great idea. They are there when I'm not. To capture the other Nearlywed getting ready, guests on arrival, reception details and different angles during ceremony. While I am on formal photos they will be capturing guests candids & informal groups -great when you have 100+ guests. During Wedding party & Newlywed creatives they are there to capture more. They depart after creatives ,I always shoot your reception solo.

Do you travel for Weddings? For sure! I am based in Auckland and travel all over New Zealand and overseas. Generally flights and accommodation is covered by my couples. 100km in any direction drive from West Auckland is included in my 6+ hour packages.

Can we see a Wedding to get a feel of a full delivery? Let me know and I would be happy to share an online gallery.

How do I confirm my booking: Pop through your \$1200 non refundable retainer booking fee, read & sign your contract... then I am all yours! 50% of your balance is due half way between your booked invoice date and wedding. Dates due and amount will show on invoice statement. Final balance on invoice is due in full 14 days prior to your wedding date. Payment plans also available.

Are these package inclusive of GST: Yes, I am GST registered 058-833-711 and all package have 15% GST & tax paid.

How many images do I get: Loosely around 100+ images for every hour. 4hrs - 400+ image, 8hrs - 800+ images. Majority of your gallery will be in colour with a sprinkle of black & whites. 4000px 300dpi (print up to A3). Need full res print files -let me know!

How long until I recieve my final gallery? I will strive to deliver within 4 - 8 weeks, with a max 12 weeks (ex public holidays). Time varies on the package booked. Please keep in mind summer season editing may take a bit longer, based on other bookings.

Do you offer video: Yes, I offer Content Creation (iphone) & Highlight Films (professional). If you would like full coverage of your ceremony and speeches etc with audio, let me know as I have a team of videographers that I work with.

Got any burning questions to ask.... give me a call or flick them through on an email!
