Collagen Induction Therapy

Also known as micro needling and dermal needling/Dermapen, is a revolutionary approach to anti-aging. It stimulates the body's own natural collagen repair and growth processes to significantly improve skin tone, texture and impurities. It is a very cost effective treatment with minimal or zero downtime and is safe while delivering results. Our treatment includes a healing and soothing Mask to calm and soothe your skin after the service.

Face & Neck	50min	\$280.00
Face, Neck & Décollete	60min	\$350.00

LED

LED will keep your skin looking young, plump and fresh, minimise your fine lines and wrinkles, strengthen those capillaries to reduce those rosy cheeks, reduce pigmentation, firm and tone your skin, heal and repair scarring and reduce acne.

LED works best by completing a course of treatments 2-3 times per week. We recommend you kick them off with a facial peel.

Photo Rejuvenation

Photo Rejuvenation is an IPL treatment for the face, décollete and back of the hands. The light energy converts to a mild heat and this heat stimulates the cells that form collagen (the plumpness and density of your skin) to wake up and begin to regrow new collagen. During the course of treatments you will notice a brighter, more even skin tone, larger pores reduced and fine lines and wrinkles start to look less visible.

We can also treat Red Vein, Rosacea and other vascular conditions, age spots, freckles, flat pigmented birthmarks and other skin discolouration problems.

Dermaplaning

Dermaplaning provides an effective and safe exfoliation treatment that promotes deeper product penetration, boosting the effects of skin care products while making the skin look and feel smoother and also reducing the appearance of acne scars. The treatment also works to remove facial hair that can trap dirt and oils. Perfect for that 'Peach fuzz'.
