

SOMETHING NEW SOCIALS

PRICE GUIDE AND INFORMATION

OUR CREATORS

Hi I'm Felicia, the founder and head creator at Something New Socials.

I'm personally based in the lower North Island, however, we have creators around New Zealand that can capture your special day.

Being a 2024 bride myself is what influenced the decision to expand this branch of my marketing agency to create content for weddings.

Please see below for more info on our service and packages.

WHAT WE DO

Your wedding day is the one day in your life when all of your favourite humans find themselves in the same place.

It is pure magic. And chaos.

We capture the intimate behind-the-scenes moments of your special day, the ones you'll cherish forever and the ones you won't remember the next day.

At Something New Socials we pride ourselves in creating a curated highlight film, in addition to shorter edits. You will also receive all the raw footage (videos and photos) separated into folders.

Let us handle behind-the-scenes filming, relieving stress for your bridesmaids and friends. Enjoy a phone-free day, fully immersing in the celebration.

Our services complement traditional wedding videography and photography, offering an additional option with high-quality BTS moments shot on an iPhone.
