

CHARACTERFUL BLOOMS

bring heart and meaning to your day

The Joy Farmer is a small, seasonally inspired flower farm growing treasured garden blooms for local florists and flower lovers across Central Otago.

Whether you're planning to flower your entire event or working with a florist and want to add a personal touch like styling your own tables, I can tailor freshly picked bloom buckets to suit your vision.

To make styling your own wedding or event flowers feel more approachable and enjoyable, I also offer a few thoughtful extra options:

- **DIY floristry tool kits** – Curated with all the essential floral mechanics for creating your bridal party blooms—saving time sourcing.
- **Vase hire** – Style your event sustainably by hiring vessels instead of buying new ones.
- **Flexible design support** – Take the pressure off by having me create your table arrangements, giving you space to focus on your statement blooms.
- **Pre-wedding workshops** – Hands-on sessions to ask all the questions, build confidence, and practice arranging your blooms ahead of the big day.

I'd love to help you bring your floral vision to life. If this sounds like you, please get in touch.
